## SYNTHETIC THINNER

This is a General Purpose Thinner. It is added in synthetic paints to obtain a consistency suitable for application. As a general rule, thinning should be kept at a minimum as the quality of the paint work will suffer from too liberal thinning. This thinner is blended to give the best results with regard to brushability, spray finishing properties etc.

Flash Point	: Above 30 <sup>o</sup> C (86 <sup>o</sup> F)
Colour	: Water white
Specific Gravity	: 0.780 + 0.02 at 30 <sup>o</sup> C
Recommended For	: For thinning Synthetic Enamels, CHAMAK Primer etc.
Packing	: 20 liters, 10 litres, 5 litres & 1litres.
