NC THINNER

It is added in CHAMAK N. C. Lacquer (Automotive) paints to obtain a consistency suitable for application. As a general rule thinning should be kept at a minimum as the quality of the paint work will suffer too liberal thinnings. This thinner is blended to give the best with regard to spray finishing properties etc.

Flash Point	:	Above 25 ⁰ C (75 ⁰ F)
Colour	:	Water white
Specific Gravity	:	0.85 + 0.02at 30 ⁰ C
